

Cost Engineering Text

Cost Engineering for Project Success

An Australian Perspective, Second Edition by [Laurence J Pole](#)

"The purpose of this book is to provide students, engineers and project personnel with an understanding of the fundamental factors affecting project costs and progress.

The author, Laurence Pole, with input from many practising cost professionals, primarily in the Australian Cost Engineering Society (ACES), has made clear the basic issues involved in understanding essential project elements, identifying cost and time constraints, and controlling outcomes for successful project delivery."

The text can be purchased from the Swinburne University book shop in Hawthorne, Melbourne, see contact: <https://bookshop.swin.edu.au/> ; Address Level 2 UN Building John Street, Hawthorn, VIC 3122 ; Phone +613 9214 5484 ; Email bookshop@swin.edu.au

An ebook version of the second edition is also available from Kobo (note, but not yet on Amazon Kindle). See <https://www.kobo.com/us/en/ebook/cost-engineering-for-project-success-1>
