

Australian Cost Engineering Society NSW Networking Event 3 August 2017

The Australian Cost Engineering Society NSW (ACES NSW) together with Jones Day are honoured to invite you to their jointly held networking event on Thursday, 3 August 2017.

This event will provide a great opportunity for the fellow Cost Engineering, Project Planning and Project Controls practitioners to meet and mingle while having some nibbles and drinks.

This networking event will be held 3 weeks after Susanna Cahill's presentation on "A Practical Guide to Mitigating and Managing Legal Disputes on Large Infrastructure Projects". Therefore, it will also provide a great opportunity for us to ask our questions and discuss our concerns in relation to our projects with her and her colleagues at Jones Day.

Since opening in 1998, Jones Day's Sydney Office has been providing legal services to Australian and global clients requiring advice in relation to both cross-border and domestic transactions and litigation. Clients of the Sydney Office include Australian and multi-national companies across a range of industry sectors including financial services, energy and resources, pharmaceuticals and biotechnology, technology and telecommunications, health care, agriculture, retail and consumer goods, manufacturing, project development and chemicals. With Jones Day's integrated global network of more than 2,500 lawyers in offices across the Americas, Europe, the Middle East, and Asia, clients of our Sydney Office have access to an unrivalled depth of experience which provides them with a nuanced view of law, regulations, and market practice in a range of jurisdictions.

Jones Day is acting on some of the largest construction disputes currently on foot in Australia, including acting for:

- Fluor Australia Pty Ltd against Santos Ltd in a \$500 million AUD dispute on the Gladstone LNG Project in Queensland, and
- Duro Felguera Australia Pty Ltd against Samsung C&T Corporation on a \$10 billion USD dispute on the Roy Hill Iron Ore Project in Western Australia.
